

Project Design Phase-II

Technical Architecture

Date	3 November 2023
Team ID	NM2023TMID02652
Project Name	How to create a landing page in hubspot ?

Technical Architecture:

The technical architecture for creating a landing page in Hubspot is relatively simple . Hubspot provides all the necessary tools and infrastructure to create and publish landing pages. Hubspot uses a CDN to deliver its landing page to visitors around the world with high performance and reliability. Hubspot's technical architecture for landing pages is robust, scalable, and easy to use.
